A word of welcome

Welcome to VEZA. This slim guide is written for you — a private map to how the studio serves its clients online. Every piece we offer is made by hand in our Harare atelier, set with stones sourced across Zimbabwe, and released quietly. What follows will help you move through the studio at your own pace.

All accounts are private. We never share your correspondence, wishlist, or order history.

Creating your account

The steps

Step 01

Open *Account* in the top navigation.

Step 02

Choose *Create an account*, then continue with Google or an email address.

Step 03

Confirm your name and delivery city. That's all we need to begin.

You may sign in later from any device — orders, wishlist, and commission threads follow you.

Browsing the collections

The collections page presents everything currently in the studio: three live collections and any capsule pieces released for events. Coming-soon collections show a discreet countdown; you may register interest so we write to you when they open.

Filtering by stone

Each piece is tagged with its stone and metal. Use the *Gemstones* page to read about the stones themselves — their origin, symbolism, and how they wear over time.

Placing an order

Your bag

Multiple pieces may be added to your bag. Each product page shows the two available metals (9k gold or sterling silver); choose before adding. Adjust quantities in the bag itself.

At checkout

1. Confirm your delivery city and country.
2. Select a courier (see next page).
3. Enter your name and contact details.
4. Review the total, including shipping.

Choosing your courier

VEZA works with five couriers, each suited to a different region and speed. Rates are calculated live from your shipping city.

DHL Express

Worldwide, 2–4
days. Insured.

FedEx

Africa & Europe, 3–
5 days.

Aramex

Regional, 5–7 days.

SkyNet

Southern Africa, 3–
6 days.

Pieces above a certain value ship insured by default.

Payment & order requests

Once Stripe is active

When card payments are enabled, you'll complete your purchase directly at checkout. Until then, submitting your bag creates an *order request*: the atelier receives it, verifies the pieces are ready, and writes to you with a private payment link and confirmed shipping date.

Currencies

Prices are shown in USD by default; other currencies convert at checkout.

Tracking your order

Every order lives in your account under *Orders*. As it moves through the studio — accepted, in preparation, shipped, delivered — the status updates and, where the courier supports it, a tracking number appears.

If a piece needs an extra hand-finishing pass, we will always write to you before we begin.

Requesting a bespoke commission

The *Custom* page opens a private brief. Tell us the occasion, the wearer, and any stones or metals you have in mind. You may upload references. Ms. Chiganze or a senior atelier hand responds within two working days with sketches and a considered quote.

What to expect

1. Initial correspondence — 1 to 2 days.
2. Sketch & quote — usually a week.
3. Making the piece — 3 to 8 weeks depending on stone.
4. Delivery & care notes.

Care & correspondence

Every VEZA piece arrives with a care card. Keep gold and silver dry when not worn; polish softly. Should anything ever need attention — a re-set stone, a re-sized band — we will always take it back.

Reaching us

Write to hello@veza-studios.com or ring +263 777 602 761. Our monthly letter goes out to the private list only.

Thank you for choosing VEZA.
